

### Steps to follow:

Remember, everything in **red** is something that is likely to need to be changed. You need to read each and every word on these documents, match the formatting and alter them accordingly. In the instance that any of the documents have the **Certificate of Live birth/Information Registration Statement/application for citizenship certificate** then you have to put in the title of your document as it changes across different States; you do not leave both in there or need the / symbol, so delete the irrelevant parts.

-----

Get certificate of live birth/Information Registration Statement and Birth Certificate **OR** your Application for Citizenship and Citizenship Certificate.

Authenticate the certificate of live birth/Information Registration Statement **OR** your Application for Citizenship.

the reality is that it is not strictly necessary to authenticate any documents, but it does add enormous weight to the process that we are doing, and it is by far the more ideal circumstance that we do have these documents authenticated, for the reasons outlined in the more generic document discussing why we are even doing this process.

-----

While you are waiting for them to arrive/get returned:

- buy an a4 registered mail envelope from the post office for the main mailing to the governor-general, because you need that registered mailing number to use on the footer of your documents and also as the trust indenture identification for claiming and assignment on the UCC.

- buy a red ink pad from the post office/newsagent to use for your thumbprint when signing off on your documents .

- fill out and execute the Generic Reversion documents, including the document relating to your children if you have any. Do not complete the document titled "6. Certificate of Registration of Reversion - single biblical" as yet. **DOUBLE CHECK THE ADDRESSES and OFFICE HOLDERS**

- fill out and execute the power of attorney document and scan it to get a digital copy.

-----

- do the UCC1 filing bailor-bailee including uploading as an attachment the executed scanned power of attorney document. Download a copy of that executed UCC1 and copy the URL/web address of the filing. Print out a copy of the UCC1.

- do the UCC1 filing claim of trust Download a copy of that executed UCC1 and copy the URL/web address of the filing. Print out a copy of the UCC1.

- do the UCC3 filing of the assignment of trust. Download a copy of that executed UCC3 and copy the URL/web address of the filing. Print out a copy of the UCC3 filing.

- do the PPSR filing, pasting both the URL/web address of the filing of the two UCC1 filings and the UCC3 filing into the verbiage into that filing. Download a copy of that executed PPSR and copy the URL/web address of the filing. Print out a copy of the PPSR filing.

---

- Insert both of the the UCC URL/web addresses and filing numbers into the the document "6. Certificate of Registration of Reversion single biblical" at point 4.

- Insert both of the the PPSR URL/web addresses and filing numbers into the the document "6. Certificate of Registration of Reversion single biblical" at point 5.

- insert that registered mailing number of the mailing sent to the governor general into the document "6. Certificate of Registration of Reversion single biblical" at point 8. "Registration Number".

- follow the instruction in the "Send something in Handwriting" by handwriting the verbiage and inserting the registered mail number.

- you will need to affirm and then attach the "Affidavit merger" to the Birth Certificate with a

paperclip or bulldog clip

- On every printed document, please ensure to place a 5 cent stamp on the back of the page, in the bottom right hand corner, and date through and sign through that stamp then scan those for sending to the governor general and print/photocopy them for the rest of the mailings; the parasites reputedely have a tendency to turn the document over and pretend that the page is blank and so they do nto have to action it. But they resilie at seeing that stamp cancelled out and realising that you have accepted the offer of probity provided by the post master general. Will it stop them from being openly corrupt? Hahahha, clearly not, but it adds more evidence for us to bring them before the courts later on and gaol them.

- Send a copy of all documents to all recipients as the Estate is able to interact with the public and the private, so there is no potential issue there.

- There are 17 addresses to send mailings to, the main thing to remember is that Australia Post are very strict on keeping to the 500 gram limit for registered post so ensure to keep the total under that amount. Also, use the A4 variety, folding the documents to fit in the smaller envelopes will likely cause them to be too thick to be accepted for mailing by Australia Post.

- Also include two fifty (50) cent international stamps that is not stuck to anything to act as substance consideration for the efforts of the Trustee, so that they can be held to more than just a gratuitous level of obligations.

- Please take a screenshot or photo as proof of delivery of all mailings from here and print them out and include them with you're the original documents that you are executing in this process:

<https://auspost.com.au/mypost/track/#/search>

please go back over and follow the parts in the “seek truth don’t just embrace truth” on pages 6,7, 31-36, 42 and review - “Offspring Notes” in the “If you have children” folder within the “generic reversion docs” folder

-“Assignment of Certificates Notes” in the “generic reversion docs” folder

For those who still don’t understand, the birth certificate is the equivalent of the citizenship certificate and represents the legal title to the PERSON. The certificate of live birth/birth registration statement/ information of live birth etc is the equivalent of the application for citizenship and represents the equitable title to the PERSON.

The envelope to the governor general is the A4 registered post envelope number you use in the footer of all your documents and is the name of the trust that you are creating to assign over to the reversion to the de jure commonwealth of australia constitution.

Execute/sign the documents once, then scan/photocopy those executed copies and print the rest to send out

doe is the default family name to alter to suit your circumstance.

nee

in the power of attorney, if you are a woman that now has a married name, or if you have migrated to australia and have assumed a new name then you would incorporate the use of the word “nee”:

for a married woman

### 1. Appointment of attorney by the Principal

:jane-mary: [Doe nee Smith] nee, occupant of the office of the JOHN ROBERT DOE, Estate, executor office, nation new south wales, a denizen and borderlander with no fixed place of abode on the land known as brownsville; Doe province, Commonwealth of Australia

declares the appointment of

for a migrant that has changed their name

### 1. Appointment of attorney by the Principal

:mario-robert (nee quincio-giovanni): [Doe] nee, occupant of the office of the JOHN ROBERT DOE, Estate, executor office, nation new south wales, a denizen and borderlander with no fixed place of abode on the land known as brownsville; Doe province, Commonwealth of Australia

declares the appointment of

ideally in the case of a married woman you would include a photocopy of your marriage certificate paperclipped/bulldog clipped to the birth certificate, and in the case of someone who has migrated you would include a photocopy of your name change certificate paperclipped/bulldog clipped to the birth certificate. If you don’t have a name change certificate, then clearly don’t worry about attaching what doesn’t exist.

the tail does not wag the dog

I am only addressing this because migrants are seemingly struggling with its meaning, so when the instructions suggest to hand write “the tail does not wag the dog”, you could also just write “this is an example of the executor hand writing something”. Because everything else is typed, the parasites might presume that it had been artificially generated and rather than hand write everything, I am suggesting to simply handwrite something to remove their possibility of presuming it is not a living being writing it. “the tail does not wag the dog” is a bible verse which I am using in this instance to let the parasites know that they cannot presume to be in charge of things anymore.

**The Registrar of Titles** is the person responsible for managing land titles in Victoria. A land title is an official record of who owns a piece of land, and is now called a 'folio of the register'. It can also include information about mortgages, covenants, caveats and other encumbrances affecting land.

#### Affidavit of majority

We use an affidavit of majority to demonstrate that “the age of majority” has been reached and we hold co-ownership of the PERSON, which needs to be attached to the birth certificate (by a paperclip/bulldog clip NOT stapled as a staple punctures the PERSON vessel causing it to sink under the corporate presumptions. The parasites really are **that** pathetic.) under a construct that is very similar to “minnesato rule 220” where the affidavit is affirmed in front of a justice of the peace to claim our use of the PERSON created by the use of the fictional birth certificate:

#### **“Rule 220.Birth Certificates**

The Registrar of Titles is authorized to receive for registration of memorials upon any outstanding certificate of title an official birth certificate pertaining to a registered owner named in said certificate of title showing the date of birth of said registered owner, providing there is attached to said birth certificate an affidavit of an affiant who states that he/she is familiar with the facts recited, stating that the party named in said birth certificate is the same party as one of the owners named in said certificate of title; and that thereafter the Registrar of Titles shall treat said registered owner as having attained the age of the majority at a date 18 years after the date of birth shown by said certificate.”

The occupant of the Office of man/woman trading as the Registrar of Titles is responsible for maintaining registers of titles and all activities relating to real property and is the one who needs to adjust the records for the age of majority. citizenship as well

#### **POA**

Certain individuals have a power of attorney with their family in case something untoward happens and this power of attorney would void that earlier one. In that instance, in the power of attorney in the second paragraph on page 5 of 9, after where the below yellow highlight ends on that page add this following sentence to suit your circumstances:

The executor revokes any and all previous Trustee/s, Power of Attorney or Administrator/s acting under any assumptions, presumptions, whether implied or stated, or given in ignorance or under coercion in any wise, and will no longer accept any person, company or corporation to act in any capacity of Power of Attorney, Administrator, Trustee, and others, without express prior written authorisation from the office of executor of the JOHN ROBERT DOE, Estate, other than where it is repugnant to or in conflict with the currently existing Power of Attorney held in the name of Name of Relative/whoever dated whateverdate in which instance this document yields.

Take a copy with you to give to the other government if you go back there for a holiday. if you go back to live there or move to another country entirely, then just use same process to hand over any potential future reversionary interest to the dejure version of that government (whatever was the constitution was before the introduction of social security in the 1930s) give to the secretary of the treasury if you dont have a governor general.
